

Supermicro Tower Server

- Intel[®] Xeon[®] E3-1220 v3 processor • 16GB DDR3 ECC memory
- 2x 1TB SATA hard drive • Remote management

The SD-RTSPED1P-001 Ready to Ship [RTS] server is the perfect solution for businesses that need an entry-level server, second system, or emergency server at a moderate price. Preconfigured with the Intel[®] Xeon[®] E3-1220 v3 processor and featuring DDR3 ECC memory and enterprise-class SATA hard drives, the SD-RTSPED1P pedestal server reduces operating costs and increases efficiency, providing your customer's business with the reliability and performance they expect.

SPECIFICATIONS

Processor	Intel Xeon E3-1220 v3 processor
Memory	16GB DDR3 ECC
Storage	2x 1TB SATA HDD
Remote Management	Integrated IPMI 2.0 with KVM and dedicated NIC
Dual Network	2x integrated GbE network ports
Chassis	Mini tower
Power Supply	300W
Operating System	Choice of optional Microsoft Operating Systems

Features

Intel[®] Xeon[®] Processors

The Intel Xeon E3-1220 v3 processor delivers the scalable performance and reliability needed for a server environment.

ECC Memory

By correcting 99.9% of memory errors that may occur, ECC memory ensures data safety and keeps systems running.

SATA Hard Drive

Designed to manage server storage efficiently in 24x7 environments, the SATA hard drive provides added storage capabilities when you need it the most.

Remote Management

From troubleshooting to managing or monitoring a server network, optional remote management provides secure access and control of servers, decreasing the number of IT resources needed to correct a problem.
