

# Supermicro 4U Storage Server

- Intel® Xeon® E5-2600 v2 processor • Up to 1TB ECC DDR3 memory • 72x 3.5" SAS2/SATA3 HDDs
- 4x Intel i350 GbE network ports • Microsoft Server 2012 certified

The Supermicro SDS-6047R-E1R72L 4U storage server is the perfect answer for data center and cloud IT professionals that need a scalable cloud computing solution. Consisting of 72 hard drives with up to 4TB of storage per drive, this storage server provides exceptional high storage density and leverages high-efficiency power for maximum performance. Configured with an Intel® Xeon® E5-2600 v2 processor and featuring ECC memory and remote management control, this double-sided storage solution is designed with the scalability and reliability needed to meet the requirements of today's enterprise data centers and high performance applications.

## Features

### Intel® Xeon® Processors

Intel Xeon E5-2600 v2 processor delivers the scalable performance and reliability needed for a server environment.

### ECC Memory

By correcting 99.9% of memory errors that may occur, ECC memory ensures data safety and keeps systems running.

### Storage

Combining 72 hard drives with up to 4TBs of space per drive, SAS2/SATA3 provides added storage capabilities when you need it the most.

### Management

From troubleshooting to managing or monitoring a server network, remote management provides secure access and control of servers, decreasing the number of IT resources needed to correct a problem.

## SPECIFICATIONS

<b>Form Factor</b>	4U rackmount
<b>Processor</b>	Intel Xeon E5-2600 v2
<b>Memory</b>	Up to 1TB ECC DDR3; 1866MHz; 16x DIMM sockets
<b>Storage</b>	72x 3.5" SAS2/SATA3 HDDs in 36x hot swap drive bays (2x HDDs per bay with LEDs for each drive)
<b>Network</b>	Intel i350 GbE controller; 4x ports
<b>Remote Management</b>	IPMI 2.0 / KVM over LAN / Media over LAN
<b>Chassis</b>	Double-sided storage chassis
<b>Power Supply</b>	Triple 1280 Watts [2+1] Redundant Digital
